57 Warren St. Philadelphia.

To all whom it may concern.

It gives me very great Pleasure to bear testimony of the Deeds of this Mr. M. Fridley.

In My Capacity as Chief Engineer at the British Government Works at Waltham Abbey Essex England, During a Period of 15 years. He worked for me as a Tester & Turner. & Later as a foreman in Charge of a Department in that works.

I can with confidence recommend him to any Company as a most sober Steady & reliable man. and Capable of taking Charge of work & men. He has also had good Sea faring Experience.

Any one Securing Mr Fridley will find they will not be disappointed in their Choice

April 5th 1906.

T. M. Hodgson.
