Malcolm McLaren, Esq
Propellants, Explosives + Rocket motor Establishment,
Powdermill Lane,
Waltham Abbey, Essex

Dear Mr McLaren,

I have started to remount some of Father's photographs because the board on which the photos were stuck has decayed and become powdery. at the end of the Waltham album I found a picture of Harold's Bridge, and three groups of staff and men about ~~1900~~ ¹⁸⁹⁶ * or so. You may have copies of these, but if you wish to preserve them, I prefer to leave the job of un-mounting them to more expert fingers than mine.

I am also sending two copies of a picture of RR before his marriage.

When you have done what you wish with the photos, please return them, as I making an archive of RR's papers. It's beginning to be fairly easy to refer to.

Jessanne will be here for Christmas and the New year.

our Best wishes,

Yours sincerely,

Robert H S Robertson

2

* The only date in the 2 albums is 2.8.1896. I guess all the pictures were taken within a year either way
