The Comptroller has this day directed us to write
to you to desire a sketch of dimension of one of your Glass
Cases which contain your Mill Lamps with a description of the
Holes for letting out smoke and whether such are within the Mill or on
the outside

The Forekeeper requests to have our Courts Receipts
for Canvas

Sir
In our Annual Demand of Stows & materials for the
present Year we asked for 70 doz^s of Hair Busters

As they are a very expensive article to the Office the Compt.
of the Roy^l Lab^{ry} has directed us to make trial of Canvas in lieu thereof
if it should answer the purpose a much less No^s will be required

We are therefore to request that if the Warrants are not
yet issued for issuing them in that you would not have them made
out until you hear further from us upon the subject

We are
Sir
