NOTICE TO VISITORS

Visitors are particularly requested to pay attention to the following regulations:—

1.—*On entering the Factory, to hand over to the Police at the gate, any Lucifer Matches, Cigar Lights, &c., Tobacco Pipes, or any Iron or Steel articles, such as Knives, Keys, &c., which they may have in their pockets.*

2.—*In going round the Factory, to be particularly careful not to carry into any of the buildings either Walking Sticks or Umbrellas.*

3.—*In walking round the Factory, not to turn up their Trousers at the ankle, as experience has proved this is a very likely means of carrying small pebbles or gritty particles into the houses.*

4.—*To take especial care when about to enter one of the Powder houses not to step over the foot boards, until they have put on the Magazine Shoes provided; guarding also against allowing the latter to touch that part of the floor which is outside the board; and further, to be especially careful in putting on or taking off the Magazine Shoes, not to allow any particle of Mud, Grit, or Sand to fall on the floors of the building.*

Colonel C. W. YOUNGHUSBAND, R.A.

Superintendent,

January, 1871.
