GENERAL INSTRUCTIONS FOR USING TELEPHONES CONNECTED TO  
RO(WA) EXCHANGE

Emergency Calls

Dial 222 and ask the operator for the required emergency service.

Fault Reporting, Operator Enquiries and Assistance

Dial 0

Outgoing MOD Network Calls

Some of the more widely used Locations available are Listed on page 3. To call a Location dial the code followed by the extension number required (if known) or the operator assistance number. Other MOD and Military Location codes can be obtained from the Operator.

Calls to RO Westcott

Dial 6 and the extension number required.

Outgoing Public Network Calls

For official calls Dial 9, wait for the dialling tone, then dial the STD code (where applicable) and the number required.

Private calls should only be made in cases of genuine urgency (Local calls only); all other calls must be passed to the Operator for connection.

To recall the Waltham Switchboard Operator while connected to an Outside Caller - excluding DDI calls

Press the button on top of the handset, wait for the dialling tone and then press the button again. The Waltham Operator can transfer the call to another extension if required.

Interruption of a call by the Waltham Switchboard Operator

The operator can interrupt to offer you an urgent call.

Royal Ordnance Factories

Although Waltham Abbey are not connected directly to the Royal Ordnance telephone network, staff can make use of the system through the tied lines to Westcott. To call anyone in the other Factories dial 6 followed by the appropriate access code and the extension. The only Factory not on the network is Bridgwater, but this factory can be reached by dialling Westcott Operator (60) and ask for the Factory and extension that you want.

The following are given in case the call is urgent and the tie Lines are busy:

DIRECTIONS FOR VISITORS ARRIVING AT BLACKHORSE ROAD  
UNDERGROUND STATION

Come up from the underground on the escalators. Do not go straight out of underground station but turn SHARP LEFT at top of the escalators onto the surface station (BR) where there is a passageway marked "WAY OUT". Go down the stairs into the small car park adjacent to and immediately behind the station where the ERDE car waits at the bottom of the stairs.

WARNING There is also a separate large car park for about 200 cars - this is not where the ERDE car waits.

GENERAL INSTRUCTIONS FOR USING TELEPHONES CONNECTED TO  
RO(WA) EXCHANGE

Emergency Calls

Dial 222 and ask the operator for the required emergency service.

Fault Reporting, Operator Enquiries and Assistance

Dial 0

Outgoing MOD Network Calls

Some of the more widely used Locations available are Listed on page 3. To call a Location dial the code followed by the extension number required (if known) or the operator assistance number. Other MOD and Military Location codes can be obtained from the Operator.

Calls to RO Westcott

Dial 6 and the extension number required.

Outgoing Public Network Calls

For official calls Dial 9, wait for the dialling tone, then dial the STD code (where applicable) and the number required.

Private calls should only be made in cases of genuine urgency (Local calls only); all other calls must be passed to the Operator for connection.

To recall the Waltham Switchboard Operator while connected to an Outside Caller - excluding DDI calls

Press the button on top of the handset, wait for the dialling tone and then press the button again. The Waltham Operator can transfer the call to another extension if required.

Interruption of a call by the Waltham Switchboard Operator

The operator can interrupt to offer you an urgent call.

Royal Ordnance Factories

Although Waltham Abbey are not connected directly to the Royal Ordnance telephone network, staff can make use of the system through the tied lines to Westcott. To call anyone in the other Factories dial 6 followed by the appropriate access code and the extension. The only Factory not on the network is Bridgwater, but this factory can be reached by dialling Westcott Operator (60) and ask for the Factory and extension that you want.

The following are given in case the call is urgent and the tie lines are busy:
