

Archive Donation 125
(oef_125.pdf)

This is an important link with the actuality of use by a member of the staff of the plant. See WASC 2443 for comments.

Mrs. J. Muir of Wingrave, Aylesbury, has made a donation to the Archive, comprising the working papers of her father, Mr. John Houghton, who worked at the Waltham Abbey Tetryl plant from 1942.

The papers, to be lodged in Archive Section WASC 2445, include 100 pages of process description, operating instructions, listing of buildings and plant, a blueprint of the plant, a Tetryl flow sheet with production data, a Handbook No. 1 – Explosives from War Office Text Book of Ammunition, widely distributed to the RA, RAOC, Technical and Training Establishments and Schools of Instruction.

Blueprint of the Plant

The blueprint, to be lodged in Archive Section WANBD 35, will be the only blueprint in the Archive.

Detail is: 51in.W 28in.D Scale 1inch = 1 Foot

Title Detail: Superintendent RGPF, RGPF 3695 (Sheet 1), 16-12-42,
